About JL BROTHERS CRANES

JL BROTHERS Cranes is Indian Company Dealing in the Field of Crane. Solution Our Crane Solution With the **New Generation low Head room Electric Wire rope Hoist** Hoists Are designed for Low Maintenance, high reliability, High performance & Safety which sets Our Wire Rope Hoist apart from Other Hoists. JL BROTHERS Offers Complete EOT solution for Safe work Load Range up to 100 Ton. Our Hoist is Based on **German & European Technology** With the **Indian Standard Products** Like Motors, Brake, Which Gives Easy maintenance Solution.

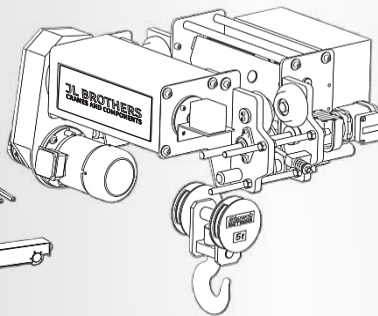

Our Commitment towards the Customer

- ❖ Technical Excellence
 - ❖ Reliability & Flexibility
 - ❖ Service Support (24x7)
 - ❖ Punctuality
 - ❖ More than 15 years of Expertise
 - ❖ Best Quality
- ❖ We have custom design to meet customer specification.

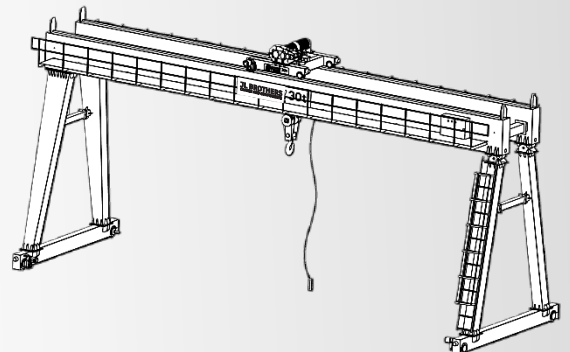

Our Product Range

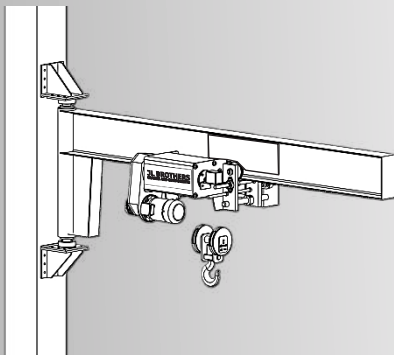

Single Girder EOT Cranes

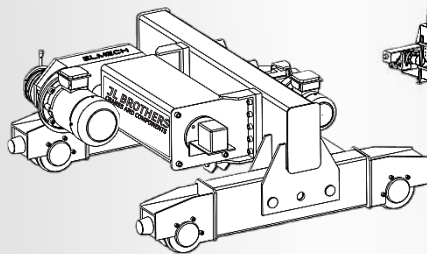

Low Head Room Wire Rope Hoist

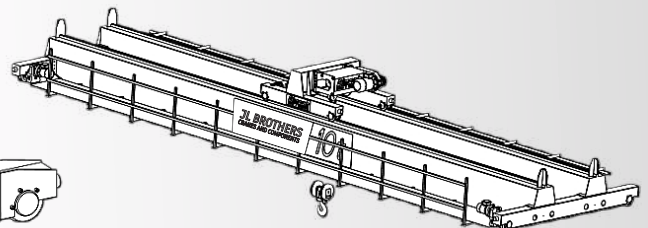

Single Girder Gantry (Goliath) Cranes
Double Girder Gantry (Goliath) Cranes

JIB Cranes.

Double Girder Crab

Double Girder EOT Crane

Single Girder EOT Crane (Up To 20Ton)

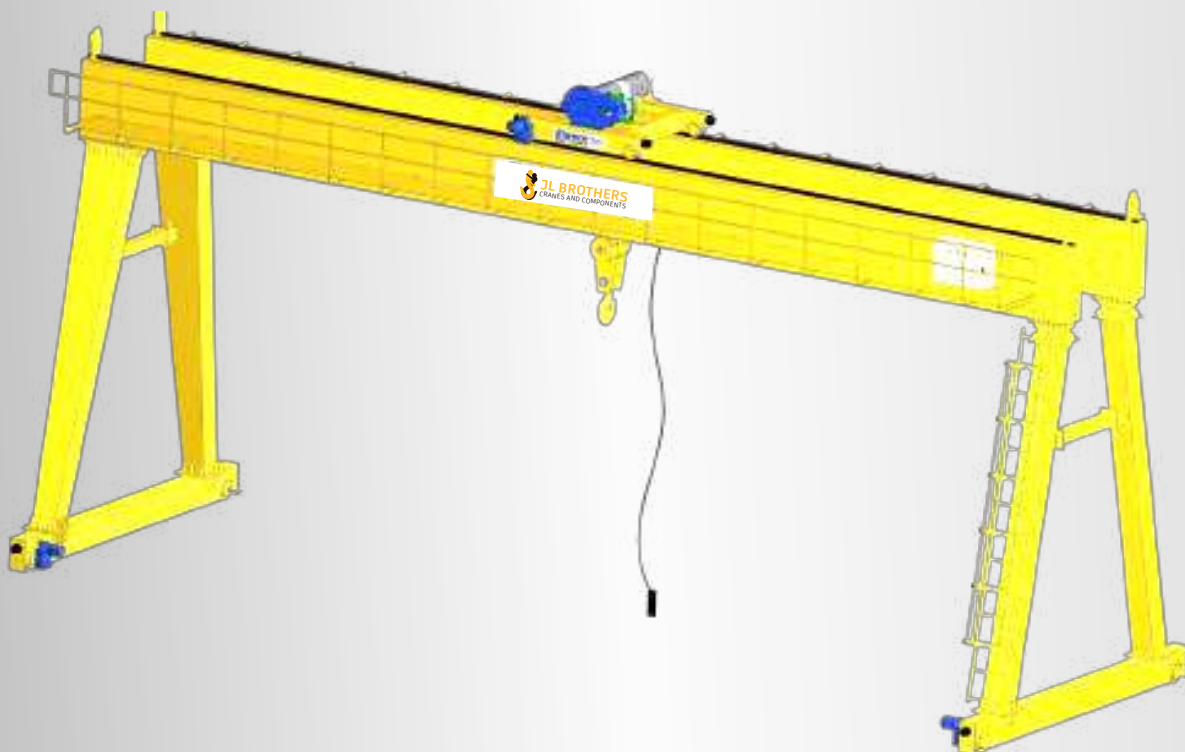

Double Girder EOT Crane (Up to 100Ton)

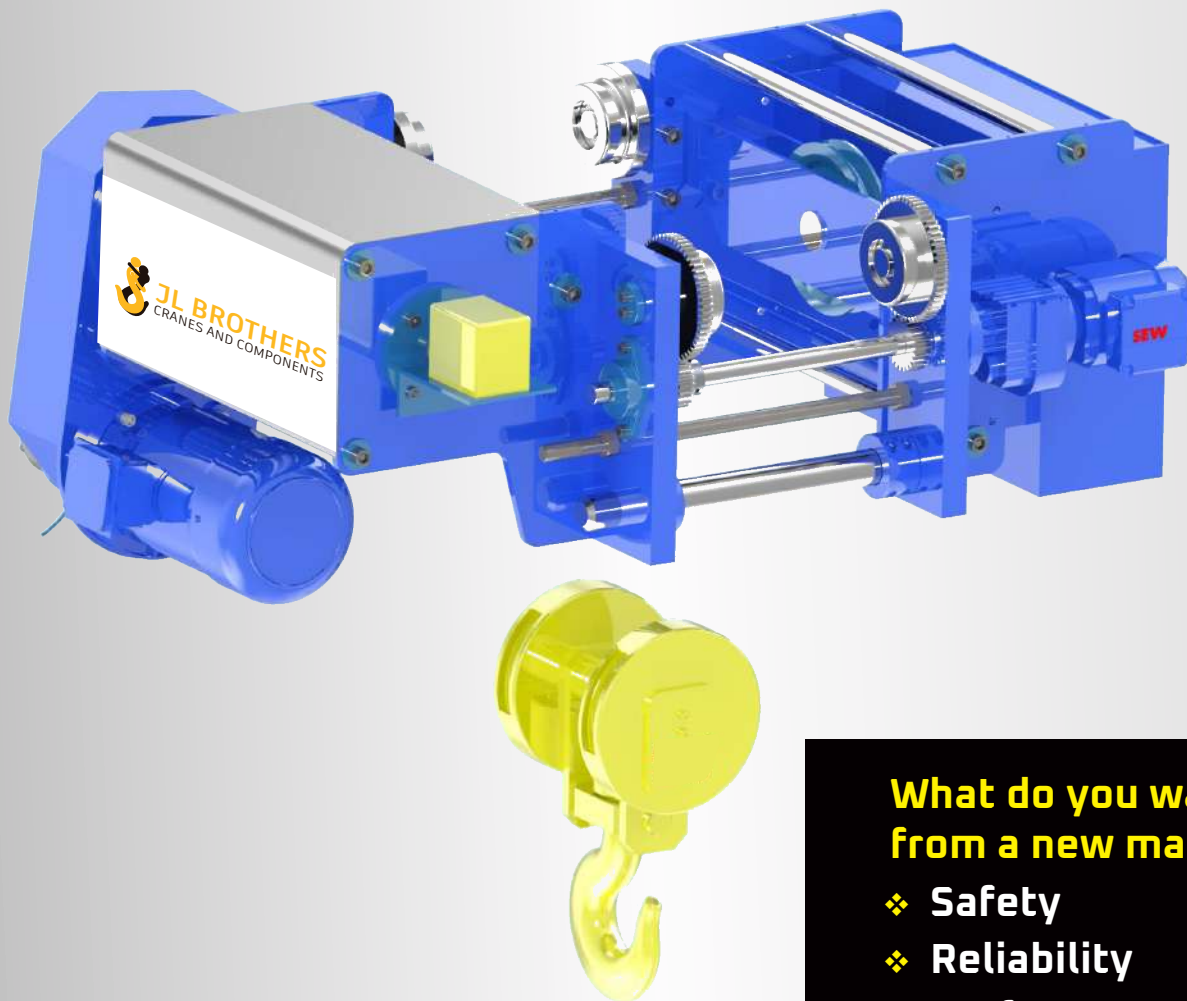

Single Girder Gantry Crane (Up To 20 Ton)

Double Girder Gantry Crane (Up To 100 Ton)

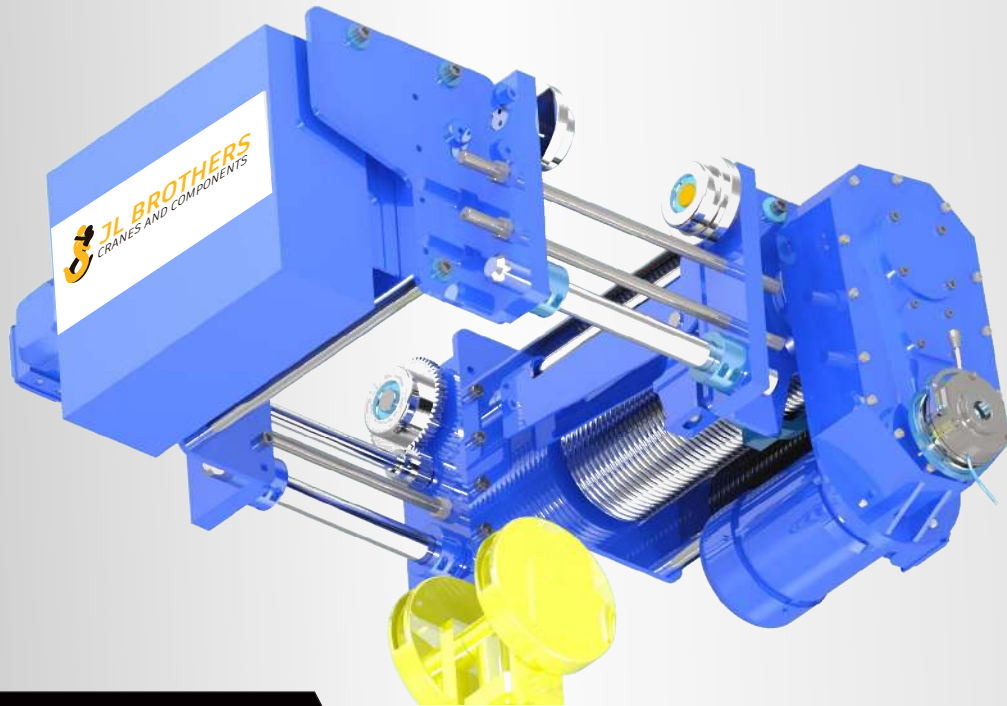

- Electric Wire Rope Hoist
- Single Girder EOT Cranes
- Double Girder EOT Cranes
- Gantry Crane / Semi Gantry Crane
- Jib Crane

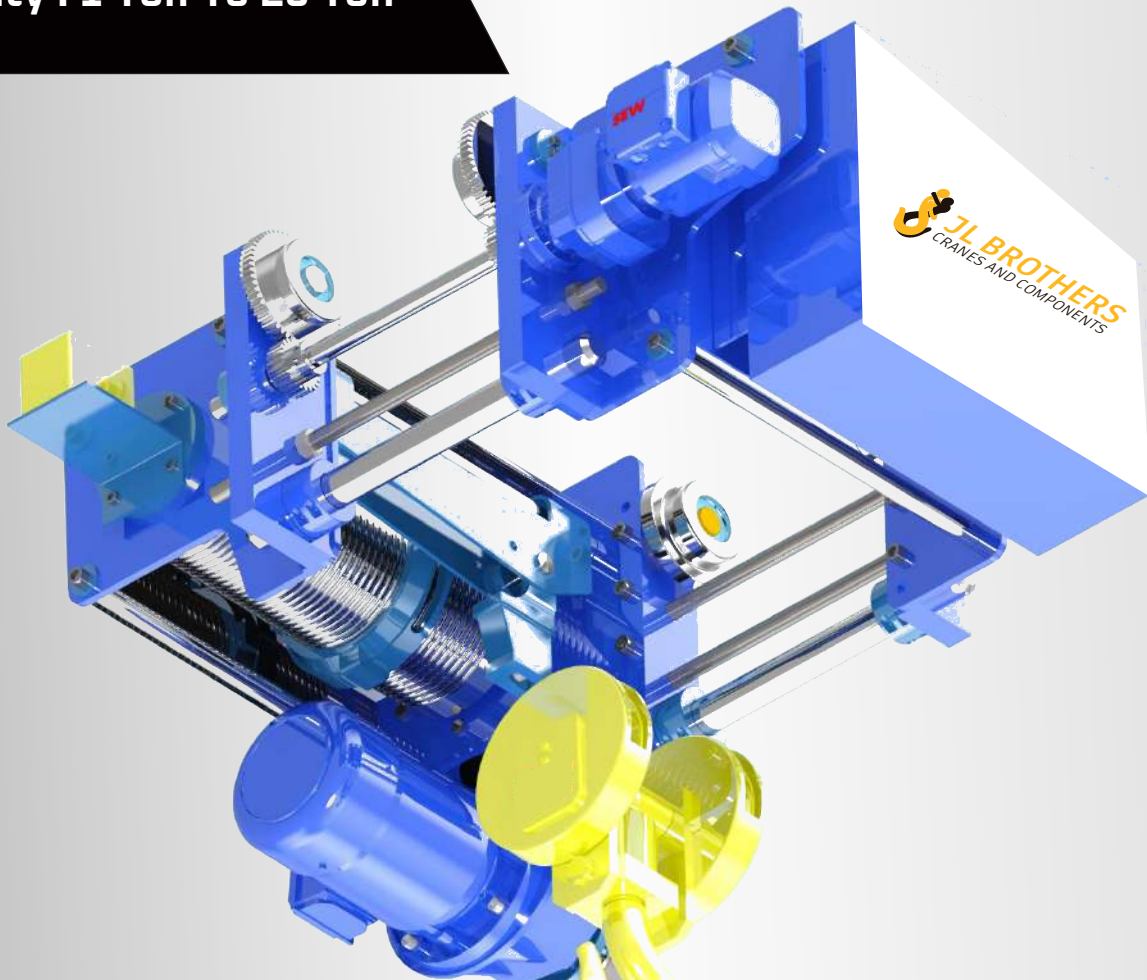

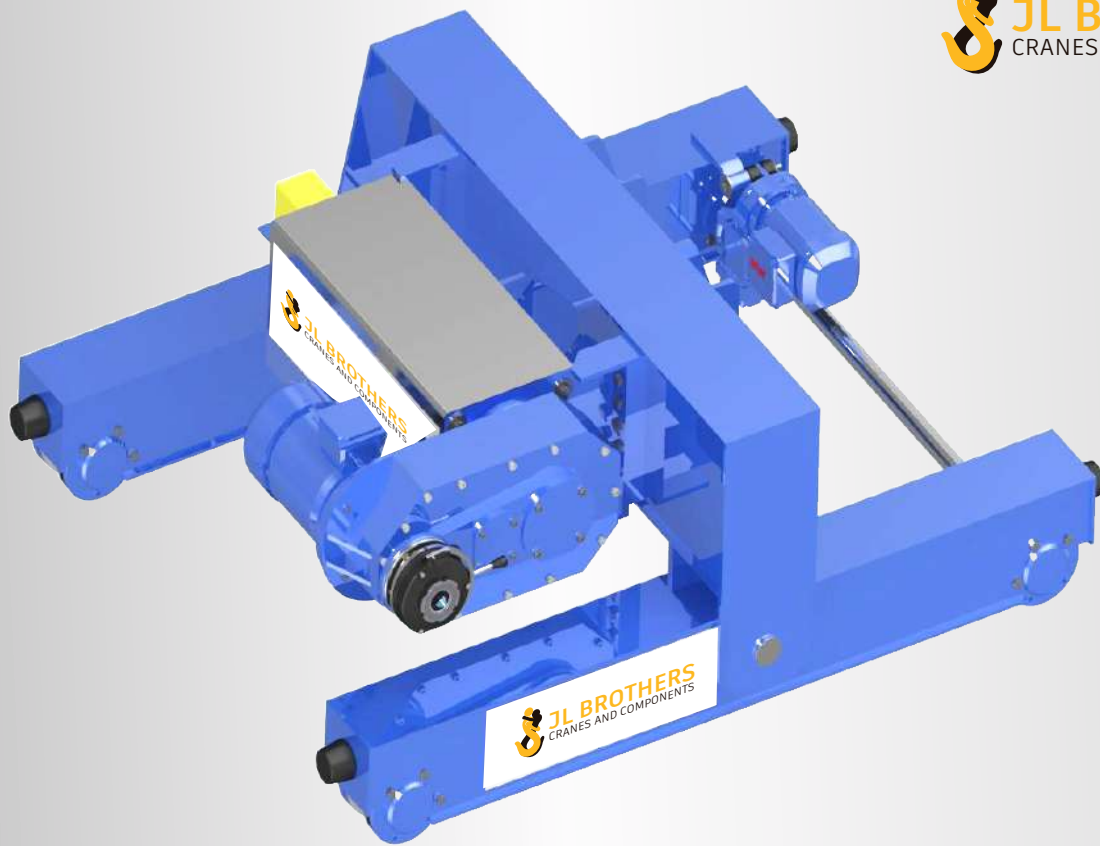

**What do you want
from a new machine ?**

- ❖ Safety
- ❖ Reliability
- ❖ Performance
- ❖ Durability
- ❖ Maintenance

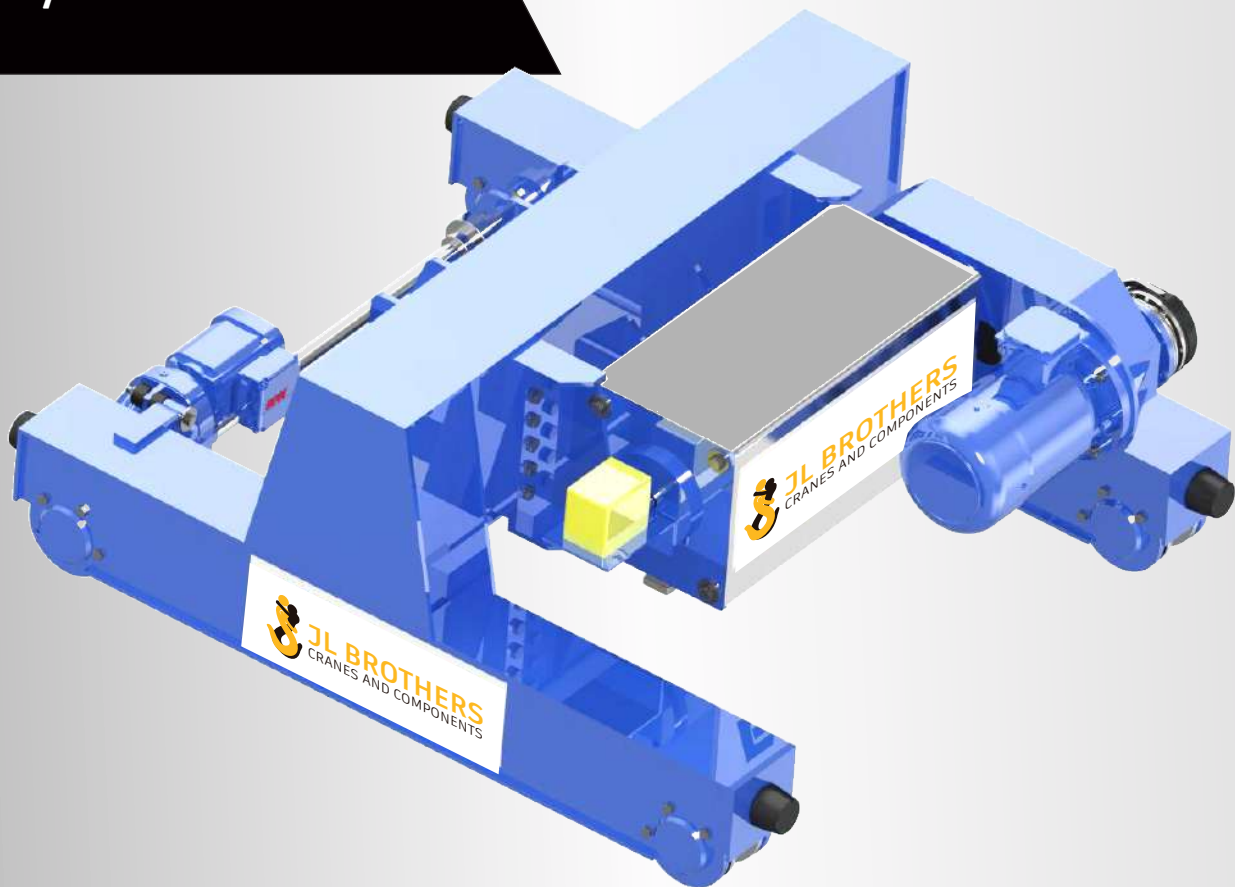

**Single Girder
Wire Rope Hoist
Capacity : 1 Ton To 20 Ton**

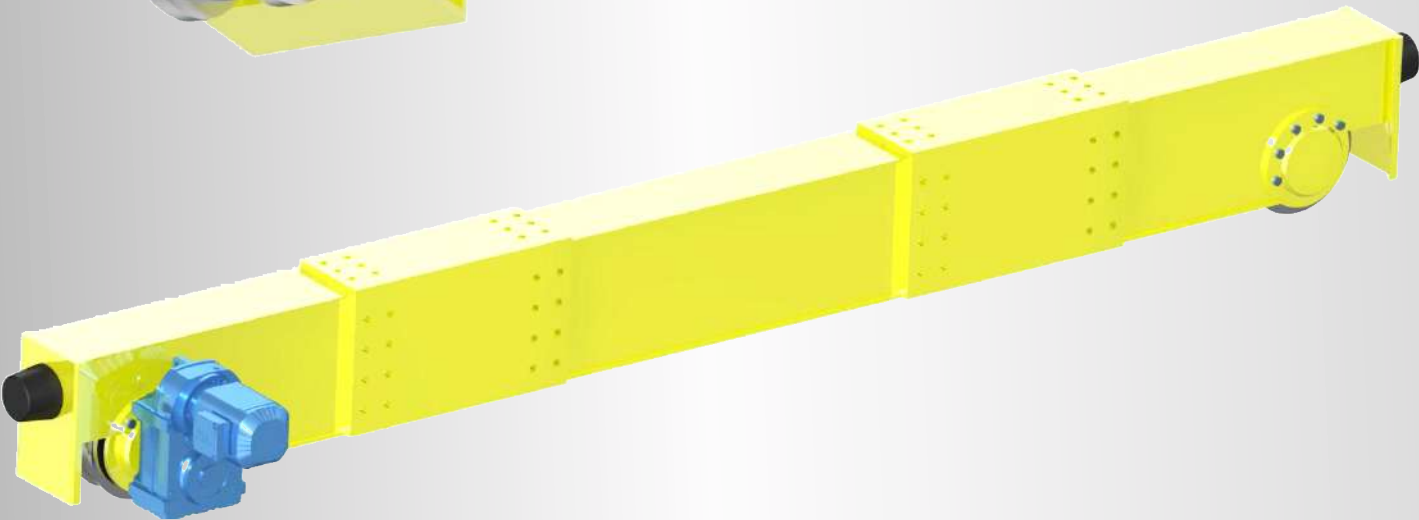

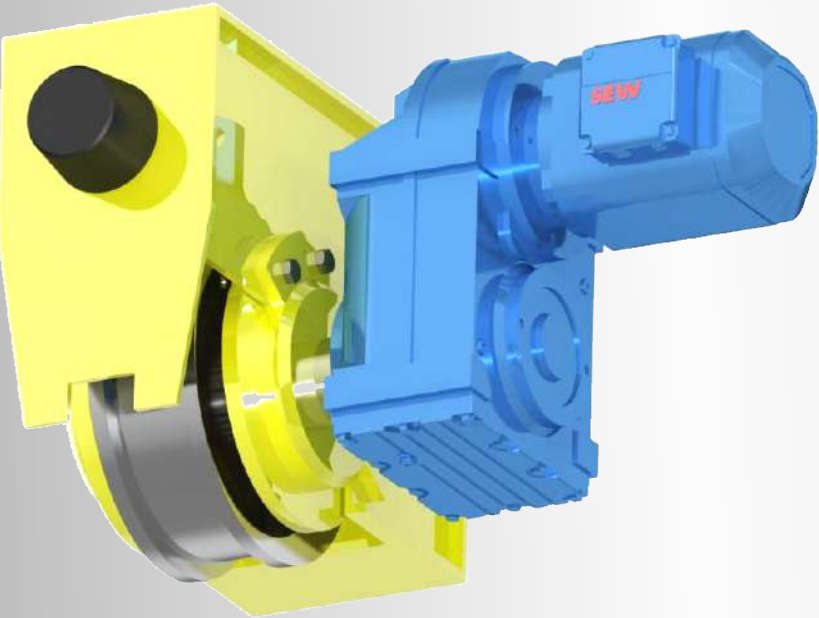

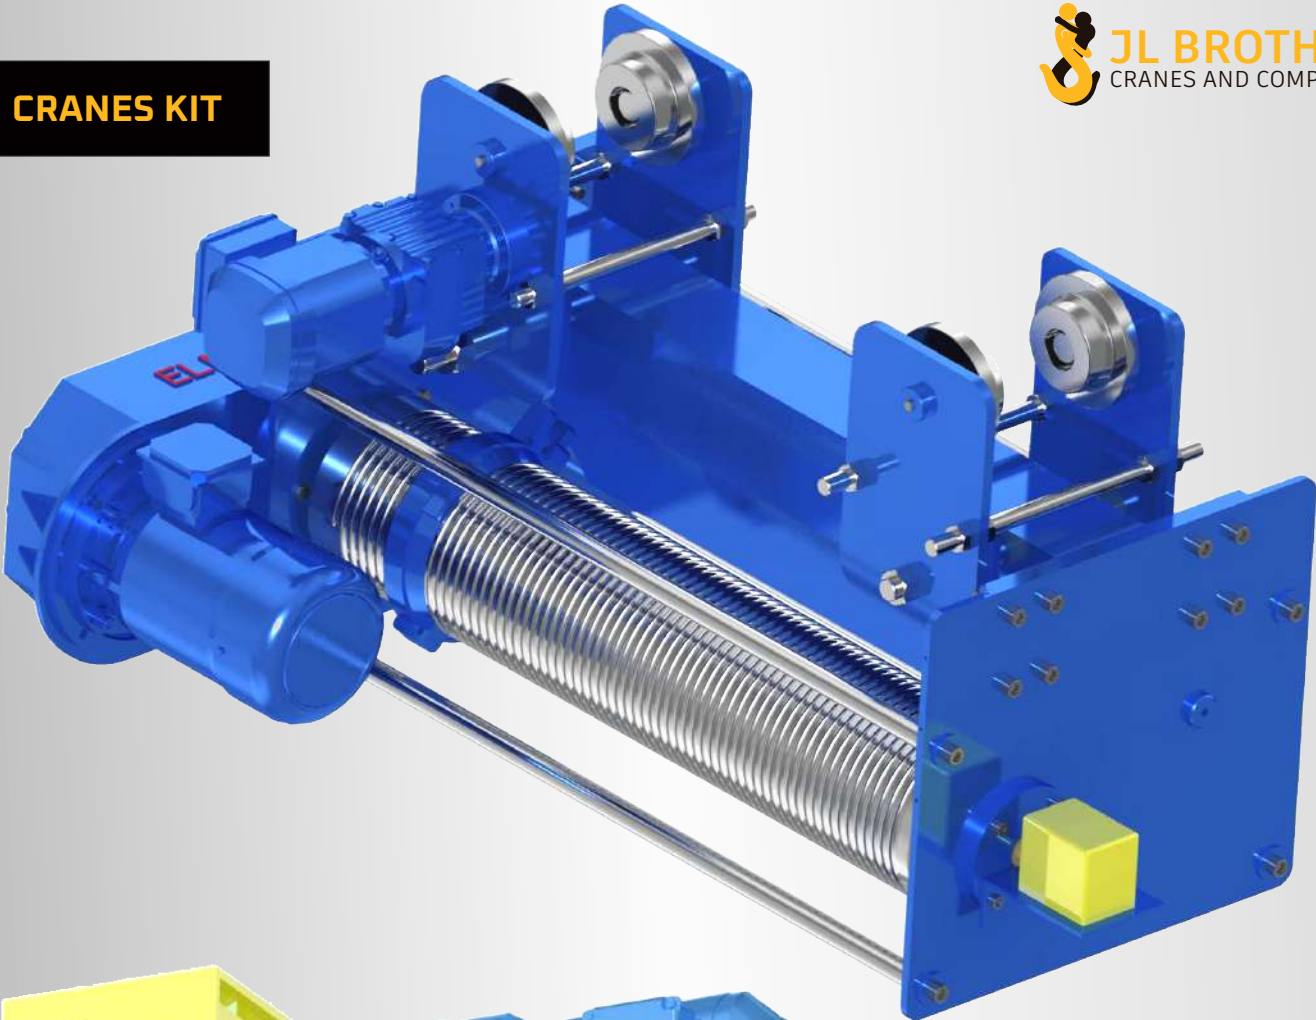

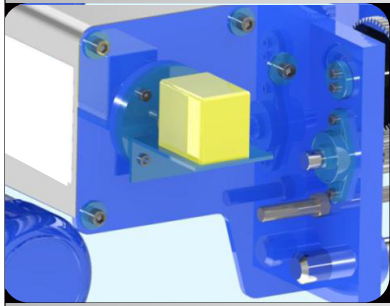

**Double Girder
Wire Rope Hoist
Capacity : 2 Ton To 20 Ton**

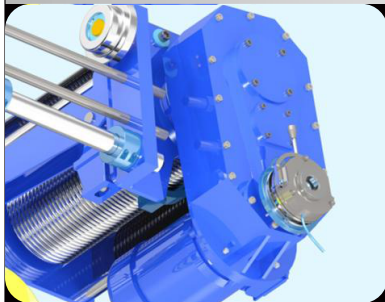

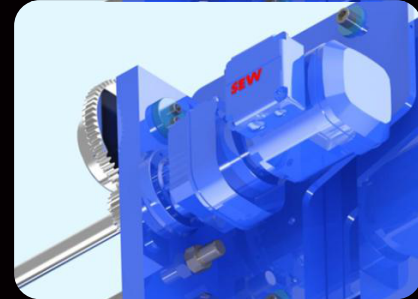

CRANES KIT

Easily Adjustable Dual Upper & lower Gear Type Limit Switches bring the Load hook to a positive stop at any desired position in both the hoisting & lowering directions.

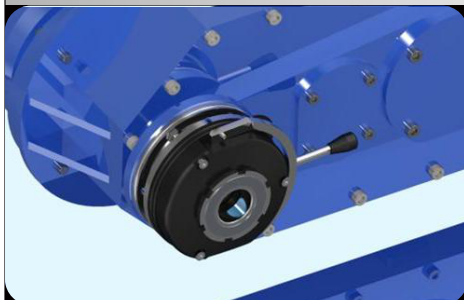

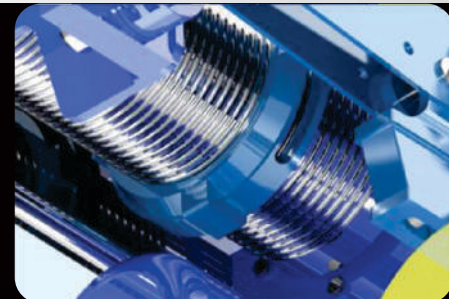

Trolley Drive Consist of squirrel cage induction geared brake motor. Integral DC Disc brakes are specially designed for crane service. Low torque high inertia drives provide smooth acceleration & deceleration without excessive load swing.

Hoist Motor & Gear unit are designed & built to meet the most severe demands of hoisting service requiring frequent reversal and high starting torque. The motor is work rated , with class F insulation.

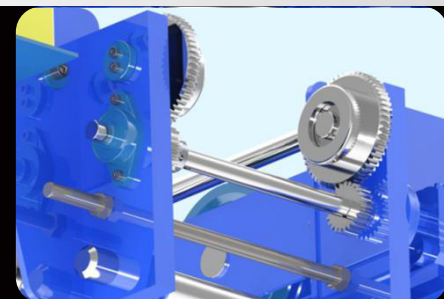

Rope Guide prevents rope from being unbraided, overlapped or cut. Protects operator from injury.

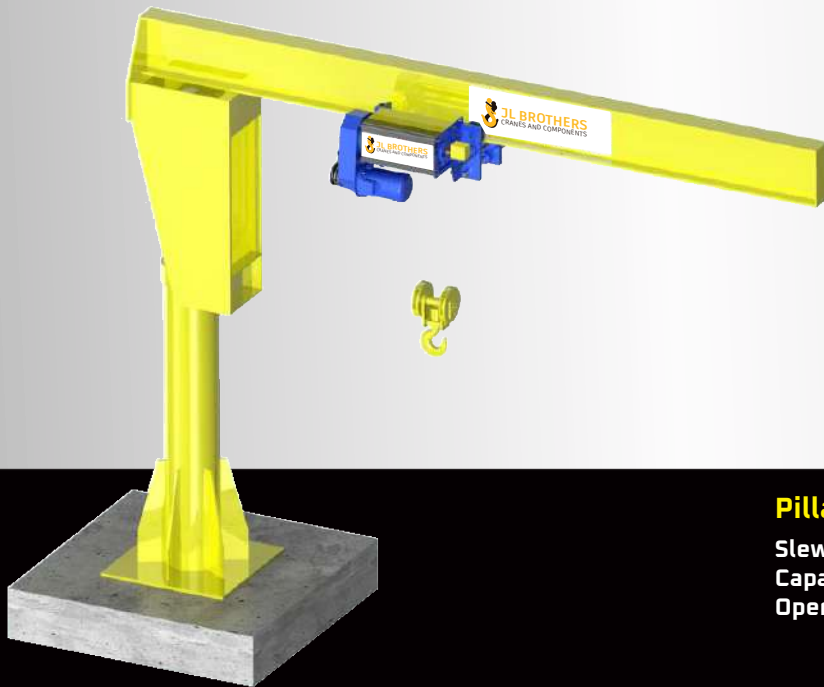

Maintains the rope in contact with the drum grooves even under slack rope conditions.

A DC rectified magnet actuated disc motor brake is automatically applied in the event of power failure. These self adjusting and virtually maintenance free brakes are provided with asbestos -free , non-polluting brake linings . An expected service life of one million operation before requiring the first adjustment.

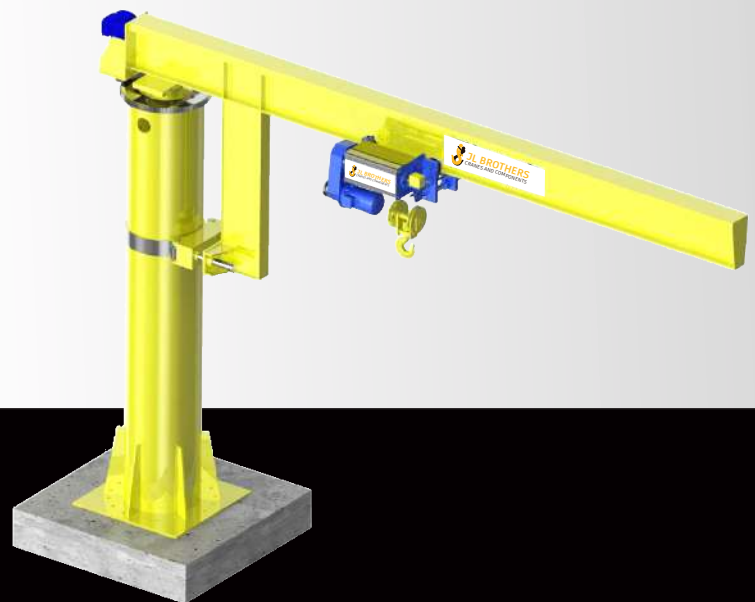

Large diameter , machine tool steel quality wheels and drive pinions. Available for most any flange width or beam style.

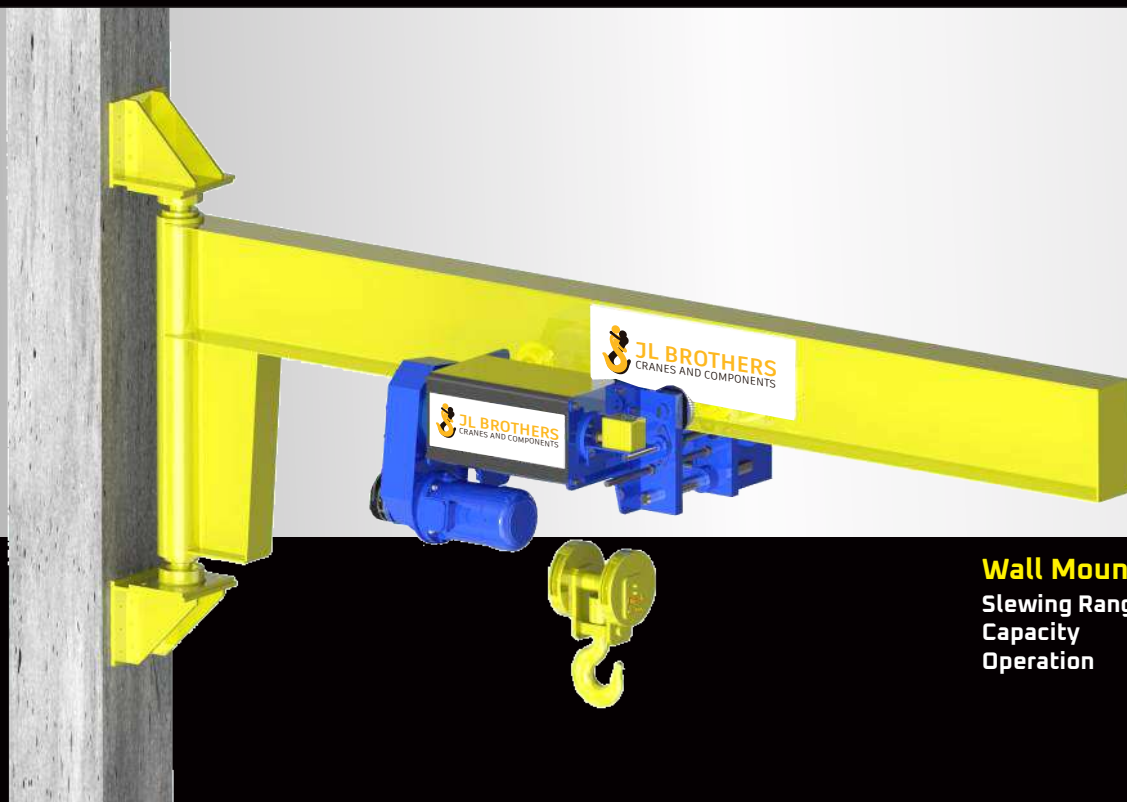

Pillar Mounted Jib Crane

Slewing Range : up to 360°
Capacity : up to 5 Ton
Operation : Slewing - Manual
: Hoisting - motorized
: CT Motorised

Pillar Mounted Jib Crane

Slewing Range : up to 360°
Capacity : up to 5 Ton
Operation : Slewing - Motorized
: Hoisting - Motorized
: CT - Motorised

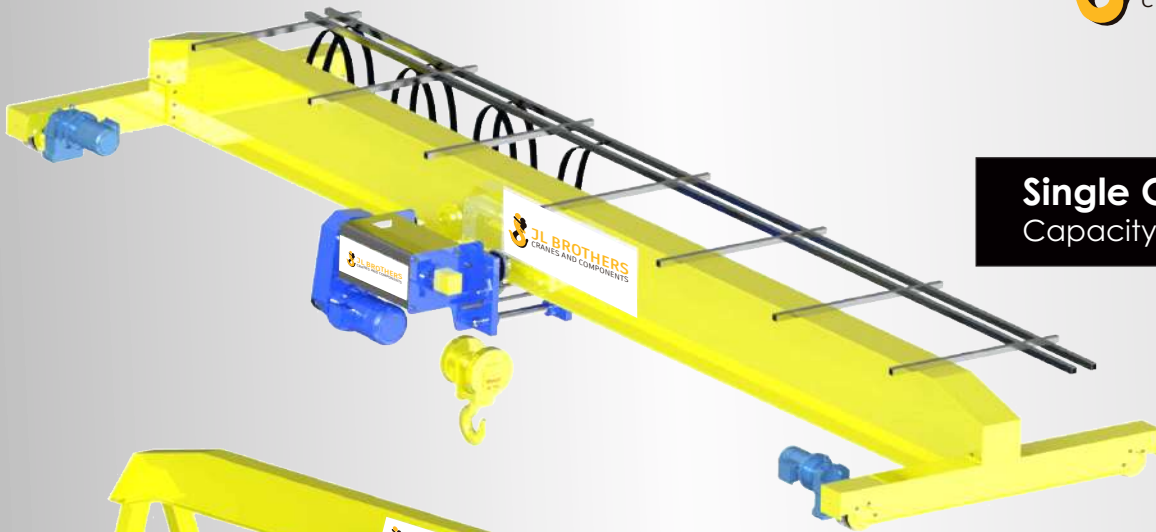

Wall Mounted Jib Crane

Slewing Range : up to 180°
Capacity : up to 1 Ton
Operation : Slewing - Manual
: Hoisting - Motorized
: CT - Motorised

Single Girder EOT Crane

Capacity : 1 Ton To 20 Ton

Single Gantry Crane

Capacity : 1 Ton To 20 Ton

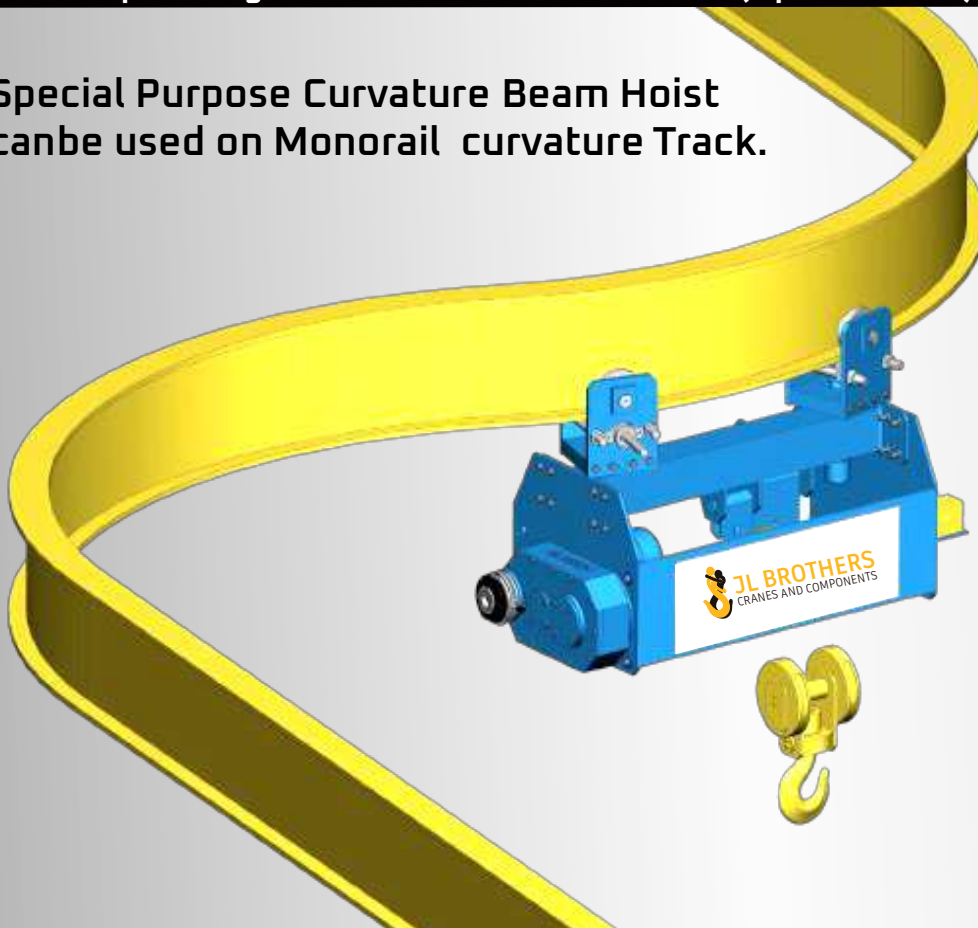

Special Purpose High lift Curvature Beam Hoist (Up To 15 Ton)

Special Purpose Curvature Beam Hoist can be used on Monorail curvature Track.

High Lift Hoist

- ❖ Lifting height up to 60 Mtrs.
- ❖ High Lift & Stable safe Operation.

SERVICE & MAINTENANCE

Our team of experts can assess, repair and rectify any crane in the country. JL BROTHERS Cranes offers the complete spectrum of engineering services for cranes with total design, fabrication and installation. We also provide cost estimates and contracting services for repairs, modification, refurbishment and enhancement of the crane capacities.

We handle Crane Engineering tasks for other brands of cranes as well.

Our turnkey services in this regard include field consultation, inspections, calculations, feasibility analysis, reports, designs, drawings, reverse engineering, fabrication, and matching, field supervision, etc.

JL Brothers Cranes offers customized services 24/7 throughout the year. Our After-sales staff and engineers guide the customers towards the safest and most economical solutions, whether it is a standard crane system or a crane system requiring specialized engineering or a complete gantry application.

Our highly skilled technicians provide our customers with service on any type of industrial equipment. The service and follow-up measures ensure that products deliver the best performances. It is of primordial importance to us that we maintain customer satisfaction on a continuous basis.

We offer a variety of preventive maintenance programs for most makes and types of lifting equipment. A thorough set of inspections and analyses is carried out by our servicing team who then provide inputs for optimizing products performance while keeping costs and loads balanced.

Our Preventative Maintenance Programs are developed to ensure maximum uptime in your facility

Key Features:

- ✓ Availability of genuine spare parts
- ✓ 24/7 on call breakdown service
- ✓ Crane Inspection,
- ✓ Preventive Maintenance and overhauling,
- ✓ Modification and Relocation of Cranes.
- ✓ Annual Maintenance contracts.

Kindly contact us regarding any questions you may have about installation, servicing and optimizing your material handling equipment
